

MY SECRET SESSION (Eng./German)

DJS vs. MUSICIANS - HUMAN ELEMENTS IN ELECTRONIC MUSIC

Standing at the unlikely intersection of electronic dance music and jam bands is Berlin's My Secret Session. A mixed group of DJs and Musicians from all around the world enliven their audiences with a style that is equal parts Deep House, Tech House and Electro Swing.

The Session Line-Up can include various instruments such as drums, bass, vocals, brasses or sitar. "Through each member's unique contribution we recreate the energy of electronic music in an unrepeatable live performance," explained founder Florian Herzberg. "We add human elements by playing live instruments, improvising 95 percent of the sets."

The goal is to bring live instrumentation back to the DJ and dance culture. That's why the session is made for everyone who enjoys club and bar atmosphere! Not just for musician nerds!
